INTRODUCTION

All statistical data provided come from an annual survey conducted by the Office of Research and Information Services (ORIS). Individual faculty information is provided by each faculty of medicine as of August, 2004 and therefore is subject to change. ORIS also publishes "Canadian Medical Education Statistics" each September. This book provides detailed statistics concerning application to and enrolment in faculties of medicine.

When comparing data from year to year there are certain considerations to keep in mind. Starting in 1999/2000, there have been increases to the number of available places for the study of medicine at many faculties of medicine. Also, admission requirements and selection policies of individual faculties of medicine may vary from year to year.

General Information

There are seventeen faculties of medicine in Canada that offer programs of study leading to the award of the MD degree which is the first professional degree in medicine. The faculties of medicine are listed in a geographic sequence going from east to west which implies no rank ordering whatsoever.

The number of places available is determined by provincial governments based on educational and financial resources as well as Canada's future physician workforce requirement. Since the universities are under provincial jurisdiction, the majority of places in a faculty of medicine are allocated to permanent residents of the province in which the university is located.

Provided academic prerequisites have been met, the type of undergraduate degree earned or program followed should not deter filing an application. Also, whether or not the previous institution attended has a faculty of medicine does not affect the chance of admission.

An applicant must decide to which faculty or faculties of medicine application will be made. Obviously, the geographic location of a faculty of medicine is of critical importance to a prospective applicant. For those applicants who are free to move to any location where a place may be offered, chances of success in gaining admission may be considerably enhanced. Those who apply to only one faculty of medicine have the smallest chance of being offered admission. As the number of applications increases, so does the chance of being offered a place at a faculty of medicine.

The competition to enter a faculty of medicine is very keen so it is important that applicants ensure that they fully meet the entry requirements of each faculty of medicine to which they apply. Not only should applicants plan to meet all academic prerequisites, it is also important to respect all deadline dates. In general, an application or documentation is ignored when received after deadline dates.

Those who wish to maximize their chances of gaining admission to a Canadian faculty of medicine should consider the following:

- Since residence is considered in admissions, include the faculty of medicine located in your home province amongst those to which applications are submitted.
- If you are resident in a province with more than one faculty of medicine (Québec, Ontario or Alberta), try to apply to more than one faculty of medicine in the province. Remember that some faculties of medicine have far more places to allocate than others.
- Some applicants are also definite about a particular faculty of medicine and make only one application. In a situation of keen competition, the determination to enter a particular faculty of medicine may be tantamount to excluding oneself from the study of medicine altogether.

Ontario Medical School Application Service (OMSAS)
Service ontarien de demande d'admission en médecine

The six Ontario faculties of medicine use OMSAS which is a centralized application processing service, thus applicants submit only one set of application materials and academic documents regardless of the number of schools to which they are applying. Each faculty of medicine independently makes the selection decision.

The OMSAS web-site provides an on-line application service on July 5, 2004 as well as additional information related to each faculty's admission requirements. The web-site is a comprehensive one where applicants can obtain information on the application process and can view details concerning their application. The OMSAS levy is composed of a base fee and an additional fee for each Ontario faculty of medicine to which application is made.

The on-line application fees (see below) are dependent on the number of schools chosen.

<u>Number of Schools</u>	<u>In Canadian Funds</u>
1	\$275
2	\$350
3	\$425
4	\$500
5	\$575
6	\$650

Deadlines:

September 15, 2004	Last day to register for/create an account for the on-line application
October 1, 2004	Last day for receiving applications, all transcripts and academic documents and all confidential assessment forms
October 8, 2004	Last day for receipt of application fee

For more information or to request an application:

 Fax: (519) 823-5232
 E-mail: omsas@ouac.on.ca
 Web-site: www.ouac.on.ca/omsas/

Medical College Admission Test (MCAT)

The MCAT is designed to assess mastery of basic concepts in biology, chemistry (general and organic) and physics; facility with scientific problem solving and critical thinking; and writing skills. The test is not required by all faculties of medicine and the extent to which test results are used in admission decisions varies by faculty of medicine.

The test consists of four test sections: the Verbal Reasoning, Physical Sciences and Biological Sciences sections contain multiple-choice questions and the scores range from a low of 1 to a high of 15 for each section; the Writing Sample section consists of two essays and the total score ranges from a low of J to a high of T.

The test is given in April and August of each year at established test centres in Canada, the United States and overseas. The overall length of the test day is approximately nine and one-half hours. The regular examination fee was \$190 in US funds for the 2004 test dates.

E-mail: mcat_reg@act.org
Web-site: www.aamc.org/mcat

Repeat Applicants

An applicant who does not receive an offer of admission must decide whether to re-apply for admission in a subsequent year. Rejected candidates should try to reach an objective assessment of why they did not receive an offer. Unsuccessful applicants should realize that the reason for rejection may not be the lack of ability or qualities but the sheer rationing of places that is necessary when the number of qualified candidates greatly exceeds the number of available places. Well qualified candidates have grounds for re-applying for admission to a faculty of medicine and in recent years, repeat applicants have fared well. The academically weaker candidates tend not to re-apply for admission to the same extent as do those who have a sound academic background.

Applying to Medical School Outside Canada

If for any reason an applicant decides to seek admission to a medical school outside Canada, some important factors must be borne in mind. The most important of these is that returning to practise medicine in Canada may prove difficult. This is not meant to deter individuals from seeking education in foreign universities — some Canadian citizens have always gone abroad to study in recognized, reputable universities. Limitations on recognition of foreign earned MDs apply to qualifications earned abroad by citizens as well as by non-citizens of Canada. Strong motivation, determination and adequate academic preparation are in themselves no guarantee that a Canadian citizen who attends a foreign medical school will be able to train or practise medicine in Canada in the future.

Foreign Applicants

Not all faculties of medicine accept applications from foreign students. Conversely, some faculties of medicine have contracts with foreign governments or institutions to accept applications for “supernumerary” positions. It is understood that the faculty of medicine will be compensated for the entire cost of medical education, the student will not apply for post-MD (residency) training in Canada and these graduates will return to their countries of origin to practise medicine. Information about contract positions is available from the foreign educational institutions or governments that have negotiated such contracts.

Foreign students planning to study medicine in Canada are personally responsible for obtaining the necessary student authorization and student visa to enter Canada for the purpose of study. All matters related to entering Canada must be taken up at the Canadian embassy, High Commission or consulate nearest to the foreign applicant.

Faculty of Medicine, MEMORIAL UNIVERSITY OF NEWFOUNDLAND**Length of Program:** 4 years**Language of Instruction:** English**Proficiency in English Testing:** No**Computer:** Must have facility with use

2004/2005 New Admissions into Year One: 60**2004/2005 First-Year Tuition:** \$6,250 for Canadian residents; \$30,000 for visa students; other compulsory fees were \$970

Selection Factors: The number of year one positions available for 2005/2006 is 60 of which at least 40 will be filled by residents of Newfoundland and Labrador; there will be positions available for students admitted under contract with a foreign government or educational institution.

Any Canadian citizen/permanent resident or visa student may apply.

Academic Criteria: A Bachelor's degree is required at time of admission. In exceptional circumstances an application may be considered when a Bachelor's degree will not be held at time of admission.

The minimum acceptable grade point average is 3.70 on a 4.00 scale. The mean grade point average of successful applicants in 2003/2004 was 3.75 on a 4.0 scale.

The MCAT is required and must have been written since 1991 and it is recommended that the test be written within the 5 year period prior to application.

Two one semester or one full course in English is required.

Deferred Admission: Considered**Transfers:** Not usually considered but may be in rare circumstances from a Canadian medical school.**Combined Programs:** MD/PhD

Interviews: These take place during February and March in 2004. Approximately 35% of applicants are interviewed.

Offers of Admission: Offers are mailed during March, April and May in 2005. A \$200 acceptance deposit is required.

Application Details: An electronic application process is available in June, 2004. The deadline for receipt of the application and fee of \$75 is October 15, 2004. Supporting documents must be received by October 29, 2004.

2004/2005 New Admissions into Year One: 90**2004/2005 First-Year Tuition:** \$11,718 for residents of Canada; \$16,548 for visa students; \$35,000-\$47,000 for students admitted under contract with a foreign government or educational institution; other compulsory fees were \$552

Selection Factors: The number of year one positions available for 2004/2005 was 90; an additional 3-4 positions were available through the Department of National Defence; there were positions available for students admitted under contract with a foreign government or educational institution. Eighty-one positions were filled by residents of the Maritime provinces (Nova Scotia, New Brunswick and Prince Edward Island).

Any Canadian citizen/permanent resident or visa student may apply.

Academic Criteria: Four full-time 4 years university/college is required. A Bachelor's degree is required at time of admission.

The minimum acceptable grade point average is 3.3 for Maritime residents and 3.7 for non-Maritime residents on a scale of 4.3. The mean grade point average of successful applicants in 2004/2005 was 3.7.

The MCAT is required and the test must have been taken within the last 5 years.

There are no prerequisite courses.

Deferred Admission: Considered**Transfers:** Not considered**Combined Programs:** BSc Medicine

Interviews: These take place on Fridays and Saturdays in January and February in 2005. All Maritime applicants and 30% of non-Maritime applicants are interviewed.

Offers of Admission: Offers are mailed after weekly Admissions Committee meetings which take place from February to June, 2005. A \$200 acceptance deposit is required.

Application Details: Both paper and electronic application processes are available on September 1, 2004. The deadline for receipt of the application and fee of \$70 (2003/2004 rate) is October 31, 2004.

Faculté de médecine, UNIVERSITÉ LAVAL

Durée du programme : 4 ans

Langue du programme : Français

Épreuve de compétence en français : Oui

Ordinateur : Aptitude requise

Nombre de nouvelles admissions de première année pour 2004/2005 : 194

Frais de scolarité de première année pour 2004/2005 : 2 780\$ pour résidents du Québec; 6 955\$ pour les résidents d'une autre province/d'un autre territoire canadien; 17 530\$ pour l'étranger; autres frais obligatoires 508\$

Facteurs de sélection : En 2004/2005, le nombre de postes disponibles était de 194 dont 189 postes occupés par des résidents du Québec.

Tout citoyen canadien, résident permanent ou étudiant(e) détenant un visa peut se porter candidat.

Critères d'études : Deux années d'études post-secondaires à temps plein sont requises.

Le "MCAT" n'est pas requis.

Les cours pré-requis : mathématiques, physique, chimie et biologie.

Considération particulière : S'applique aux candidats détenteurs d'un diplôme d'une faculté de médecine hors du Canada ou des États-Unis qui sont résidents permanents du Québec et aux candidats ayant fait des études dans une université québécoise et provenant du marché du travail.

Admission reportée : Non envisagée

Transferts : Non envisagés

Programmes combinés : MD/MSc, MD/PhD

Entrevues : Les entrevues auront lieu la dernière semaine d'avril et les deux premières semaines de mai 2005. Environ 525 candidats sont interviewés.

Offres d'admission : Les offres seront mises à la poste entre le 15 et le 25 mai 2005.

Détails des demandes : Les demandes électroniques et papier sont disponibles en octobre 2004. La date limite pour la réception des demandes est le 15 janvier 2005 pour les universitaires et le 1^{er} mars 2005 pour les collégiens. Les frais d'ouverture de dossier sont de 30\$.

TAUX DE SUCCÈS (%) PAR LIEU DE RÉSIDENCE ¹

Québec	16.2	15.5	22.1	20.4	20.1
Autre province/territoire canadien	27.1	22.7	24.7	31.0	26.4
Étranger	1.3	4.1	2.4	1.5	1.5
Toutes les demandes à Sherbrooke	15.9	15.2	21.0	20.1	19.7

Taux de succès : Pourcentage de candidats ayant reçu au moins une offre d'admission, que l'inscription aie été immédiate, refusée ou reportée.

¹ La province de Québec impose des restrictions à la fois sur le nombre de postes réservés à d'autres résidents au Canada et aux résidents de l'étranger. La distribution se fait entre les quatre facultés de médecine au cours de chaque cycle d'admissions.

Faculté de médecine, UNIVERSITÉ DE MONTRÉAL

Durée des programmes :
5 ans (année préparatoire); 4 ans (programme de MD)

Langue des programmes : Français

Épreuve de compétence en français : Oui

Ordinateur : Non requis

Nombre de nouvelles admissions pour 2004/2005 : 244 (178 - 5 ans; 66 - 4 ans)

Frais de scolarité de première année pour 2004/2005 : 2 224\$ pour résidents du Québec; 5 564\$ pour les résidents d'une autre province/d'un autre territoire canadien; 14 024\$ pour l'étranger; autres frais obligatoires 436\$

Facteurs de sélection : En 2004/2005, le nombre de postes disponibles était de 244 dont 240 postes occupés par des résidents du Québec.

Chaque candidat fait une demande d'admission au programme de MD. Selon le profil académique du candidat, le Comité d'admission décidera si une candidature sera considérée pour l'année préparatoire ou pour la première année de médecine.

Selon le nombre de postes, environ deux tiers sont admis en année préparatoire et l'autre tiers s'ajoute au contingent de l'année préparatoire pour former la première année.

Tout citoyen canadien, résident permanent ou étudiant(e) détenant un visa peut se porter candidat.

Les candidats ayant un Baccalauréat sont considérés dans une classe particulière. Environ 50% des étudiants admis sont dans cette catégorie. Les candidats ayant un PhD sont également dans une classe particulière.

Critères d'études : Année préparatoire : deux années à plein temps de Collège d'enseignement général et professionnel (CÉGEP) en sciences de la nature. L'année préparatoire est requise pour les collégiens, les étudiants étrangers et les universitaires ayant complété un premier grade universitaire mais dont le programme d'études n'est pas jugé globalement équivalent à celui de l'année préparatoire.

Quatre ans : cinq années d'études à plein temps en université/collège/CÉGEP; un Baccalauréat exigé au moment de la demande pour les candidats de la catégorie universitaire.

Une cote de rendement est calculée pour tous les candidats. Pour les collégiens la cote est calculée par le Ministère de l'Éducation du Québec et pour les universitaires, elle est calculée par le Registrariat de l'université. Selon les critères présentement en vigueur, une présélection est faite, par catégorie, fondée sur l'excellence du dossier scolaire établie en tenant compte de la cote de rendement.

Le "MCAT" n'est pas requis.

Les cours pré-requis : mathématiques, physique, chimie et biologie ou deux cours de biologie humaine.

Considération particulière : S'applique aux candidats détenteurs d'un diplôme d'une faculté de médecine hors du Canada ou des États-Unis qui sont résidents permanents du Québec.

Admission reportée : Non envisagée

Transferts : Non envisagés

Programmes combinés : MD/MSc, MD/PhD

Entrevues : Les entrevues auront lieu les lundis et vendredis p.m. en avril 2005 pour les collégiens et en mars 2005 pour les universitaires. Environ 35% des collégiens et 50% des universitaires sont interviewés.

Offres d'admission : Les offres seront mises à la poste le 15 mai 2005.

Détails des demandes : Les demandes électroniques et papier sont disponibles le 1^{er} septembre 2004. La date limite pour la réception des demandes est le 15 janvier 2005 pour les universitaires et le 1^{er} mars 2005 pour les collégiens. Les frais d'ouverture de dossier sont de 50\$ (papier) et 30\$ (électronique).

Faculty of Medicine, MCGILL UNIVERSITY - MED-P Program

Length of Program: 5 years

Language of Instruction: English

Proficiency in English Testing: No

Computer: Must have facility with use

2004/2005 New Admissions into MED-P: 80

2004/2005 MED-P Tuition: The first year program fees are determined by the Faculty of Science in which the student is registered for the first year. Upon successful completion of the first year, the student will be enrolled in the MD,CM program in the Faculty of Medicine.

Selection Factors: Any Canadian citizen/permanent resident who is a resident of Québec may apply.

Academic Criteria: Must be currently in the second (final) year of Collège d'enseignement général et professionnel (CÉGEP). A Diplôme d'études collégiales is required at time of admission.

The minimum acceptable "cote de rendement collégiale" is approximately 34 and the average of successful applicants in 2003/2004 was 36.17.

The MCAT is not required.

Prerequisite courses include biology, chemistry, mathematics and physics. It is recommended that a second organic chemistry course be taken.

Interviews: These take place end-April in 2005. Approximately 140 applicants are interviewed.

Offers of Admission: Offers are mailed on May 15, 2005. A \$300 acceptance deposit is required.

Application Details: An electronic application process is available on September 3, 2004. The deadline for receipt of the application and fee of \$60 is March 1, 2005.

Faculty of Medicine, MCGILL UNIVERSITY - MD,CM Program**Length of Program:** 4 years**Language of Instruction:** English**Proficiency in English Testing:** No**Computer:** Personal required

2004/2005 New Admissions into Year One: 161**2004/2005 First-Year Tuition:** \$3,559 for residents of Québec; \$9,389 for other Canadian residents; \$23,207 for visa students; other compulsory fees were \$2,473.

Selection Factors: The number of year one positions available in 2005/2006 will be 172 of which 153 will be filled by residents of Québec.

Any Canadian citizen/permanent resident or visa student may apply.

Academic Criteria: A 4 year Bachelor's degree (120 credits) is required at time of admission.

The minimum acceptable grade point average is 3.5 on a 4.0 scale and the mean grade point average for successful applicants in 2003/2004 was 3.77.

The MCAT is required and must have been taken by August 14, 2004. An applicant's scores must equal a total of 30 or more.

Prerequisite courses include a full year with laboratory work in each of general biology, general chemistry, organic chemistry and physics. Courses in biochemistry or cell biology and molecular biology are strongly recommended. Pass/fail grades are not acceptable and courses completed more than 8 years ago must be repeated. Exception may be made for applicants with advanced degrees in the material concerned.

Special Consideration: Applies to applicants who have an MD degree from outside Canada or the United States.

Deferred Admission: Considered**Transfers:** Not considered**Combined Programs:** MD/PhD, MD/MBA

Interviews: These take place in mid-January, 2005 for residents outside Canada; mid-February, 2005 for Canadian residents outside Québec; end-March, 2005 for residents of Québec. Approximately 325 applicants are interviewed.

Offers of Admission: Offers are mailed after March 31, 2005 to residents outside Québec and after May 1, 2005 to residents of Québec. A \$500 acceptance deposit is required.

Application Details: An electronic application process is available on September 1, 2004. The deadline for receipt of the application and fee of \$60 is November 15, 2004 for residents outside Québec and January 15, 2005 for residents of Québec.

2005/2006 New Admissions into Year One: 56 (first entering class)**2005/2006 First-Year Tuition:** \$14,600 for Canadian residents; other compulsory fees to be determined

Selection Factors: The number of year one positions available for 2005/2006 will be 56.

Any Canadian citizen/permanent resident may apply.

The admissions scoring system will give an advantage to applicants who grew up in the communities of Northern Ontario or those applicants who have lived and worked in these communities for a significant time as well as to Aboriginal and Franco-Ontarian applicants. Applicants who have grown up in rural and remote communities in Ontario or elsewhere in Canada or who have lived and worked for a significant time in these communities will also have some advantage. The scoring system for the initial screening will include this "context" as well as GPA and community involvement.

Academic Criteria: A Bachelor's degree is required at time of admission. Any four year program degree is acceptable, however, there will be consideration given to the nature of electives undertaken.

The minimum acceptable grade point average is 3.0 on a 4.0 scale.

The MCAT is not required.

There are no prerequisite courses. It is recommended that students broaden a science degree with at least two full year courses in arts, humanities and/or social sciences, or broaden an arts degree with at least two full year science courses and should consider biology, biochemistry and chemistry.

Deferred Admission: Not considered**Transfers:** Not considered**Combined Programs:** Not available

Interviews: These take place in Sudbury and Thunder Bay on two weekends during March and April, 2005. There will be approximately 400 applicants interviewed.

Offers of Admission: Offers are mailed on May 31, 2005. An acceptance deposit of \$1,000 must be received in order to secure the position. The deposit will be deducted from the tuition fee.

Application Details: See OMSAS section
