

**Enrolment in Graduate Studies & Post-doctoral Studies and Degrees Awarded in Medical Sciences in Canadian Universities**

**2001/02 - 2009/10**

**Inscriptions aux études supérieures et aux études post-doctorales et diplômes décernés  
dans les sciences médicales aux universités canadiennes**

<sup>1</sup> The increase in the numbers of degrees is due in part to data reported by the University of Ottawa for the fields of biochemistry and microbiology/immunology. The decrease in post-doctoral fellows is due in part to a revised method of data collection at the University of Toronto.

<sup>2</sup> A decrease in post-doctoral fellows at the University of Toronto is due to a revised method of data collection.

<sup>3</sup> McGill University used a different methodology for data collection.

Enrolment includes part-time students. See notes on pages 53-54.
