## Introduction

The Association of American Medical Colleges® (AAMC®)<sup>1</sup> and the Association of Faculties of Medicine in Canada (AFMC) are piloting a fee assistance program to help medical students who need financial assistance to take the Medical College Admission Test® (MCAT®). The AAMC and AFMC are working together to pilot a fee assistance program for Canadian examinees who register for MCAT® testing as of February 1, 2023 (or April 1, 2023) through October 1, 2024.

The 2023 testing year is a pilot year for this program. Fee assistance applicants who qualify will receive reduced registration, rescheduling, and cancellation rates as well as access to The MCAT Official Prep Online-Only Bundle through December 31, 2024. The AAMC and AFMC reserve the right to discontinue the program after the pilot year.

Canadian examinees who are eligible and qualify, will receive reduced scheduling, rescheduling, and cancellation rates beginning February 1, 2023 (or April 1, 2023). Awards are limited in number and will be given in priority order to applicants in highest need. Applicants who receive fee assistance awards can use their registration benefits to test in 2023 and 2024. Awardees can test up to three times in a single testing year and four times across two years.

## Eligibility Criteria

You are only eligible to apply to the Fee Assistance Program if you legally reside in Canada. Fee Assistance Program award approval is tied to Canada's low-income thresholds, which can be found at: <https://www.canada.ca/en/services/benefits/education/student-aid/grants-loans/full-time.html>

In this program, you will be granted fee assistance if each household reported on your application has a total family pre-tax income, as of December 31st of the previous calendar year, that is equal to or less than the established low-income threshold for that family size and province/territory.

- **Parental information (for applicants under the age of 25 only)**  
The Fee Assistance Program does not draw distinctions based on your dependent or independent status from your parents, therefore, parental financial information and supporting proof of income is required. Parental information is viewed independently from applicant data but must also fall within eligibility guidelines. This requirement cannot be waived on the basis of your marital status, or tax filing status.

## Benefits

The MCAT® FAP for Canadians provides a limited number of awards to Canadian fee assistance applicants who qualify. Those awarded will receive reduced scheduling, rescheduling, and cancellation rates for the 2023 and 2024 testing years.

Benefits will be available as follows: award vouchers can be applied as of February 1, 2023 (or April 1, 2023) for testing up until October 1, 2024. Benefits will not be awarded retroactively. Fee assistance rates will be available to approved Canadian examinees through the AAMC website for testing dates through October 1, 2024. Each voucher can be used up to **four times** within that time period. Additional

FAP benefits currently available to U.S. examinees (e.g., exam preparatory materials and scholarships for educational re-evaluations) will not be extended to Canadians during the pilot year of this program. **NOTE: AFMC is solely responsible for evaluating applications and deciding which applicants receive awards.**

## Assessment Criteria

AFMC will determine award recipients based on demonstrated financial need and personal statement. Due to the limited number of awards, the following criteria will be used to assess all applicants:

### 1. **Income eligibility check**

Based on the applicant's pre-tax income and the pre-tax incomes of their parents (if under 25 years old), in accordance with Canadian low-income thresholds, which can be found at: <https://www.canada.ca/en/services/benefits/education/student-aid/grants-loans/full-time.html>

### 2. **Ranking applicants based on their deficit level**

The deficit level for each applicant will be determined by adding the applicant's income and any financial assistance received, and then subtracting from that amount the cost of annual living expenses (e.g., groceries, rent, utilities, childcare, public transportation pass) and factoring in the annual interest on applicant's total student debt load. The resulting number will either be a surplus or a deficit. The deficit brackets have been defined as follows:

- i. Surplus
- ii. D1: \$ 0 à 2 000
- iii. D2: \$ 2 001 à 5 000
- iv. D3: \$ 5 001 à 10 000
- v. D4: \$ 10 001 à 18 000
- vi. D5: \$ 18 001+

The applicants considered to be in the greatest financial need will be those in the highest deficit position, (e.g., applicants categorized as "D5" Deficit Level 5 are more likely to receive fee assistance benefits than applicants in Level D1, based on all applications received during the application period). As there are a limited number of awards, applicants with the highest deficit will receive the MCAT<sup>®</sup> Fee Assistance Program for Canadians awards.

3. A personal statement provided by the applicant in the application form may be considered when determining award recipients.

Notification to all applicants regarding the result of their application for fee assistance will be released no later than January 13, 2023 (or March 14, 2023). Fee assistance will only be awarded on February 1, 2023 (or April 1, 2023) and will not be awarded retroactively.

### I was approved for fee assistance. For what period of time is my fee assistance valid?

Fee assistance rates will be available to approved Canadian examinees through the AAMC website through October 1, 2024. These benefits are provided by the AAMC.

### How do I calculate my annual living expenses?

Take into account your monthly living expenses and then multiply this total by 12 (total months in the year) in order to get your annual living expense. Include only the expenses for which you are personally responsible to pay. Examples of monthly living expenses include rent, food, childcare, public transportation, etc.

### Can you provide examples for the assessment of income eligibility and ranking of applications?

#### Eligibility :

*Example A : Diego D’Amours, 24, is from Prince Edward Island (PE) where he cares for his two daughters and earns \$12,100/year. His mother Sam and his father Wesley and their poodle Mambo live in Manitoba, earning a combined household income of \$30,900 annually. Based on the Canadian low-income thresholds, is Diego eligible for the MCAT® FAP for Canadians?*

Does the household earn less than the low-income threshold for their province and number of household members?
Diego	3	\$ 32 474	Yes
Sam & Wesley	2	\$ 31 419	Yes

*Based on this, Diego D’Amours is eligible for the MCAT® Fee Assistance Program for Canadians.*

*Example B: Sarita MacNaughton of Nunavut, 32, earns \$9,900 per year and is alone in her household. She has no surviving parents. Is Sarita eligible for MCAT® FAP for Canadians? Her parents earn \$90,000 per year.*

<b>Sarita</b>	1	\$ 25 305	Yes

Based on this, Sarita MacNaughton is eligible for the MCAT® FAP for Canadians. Note that Sarita's parental income is not considered, due to her age.

**Example C:** Ron Lillyhammer of Alberta earns \$3000 per year. Ron's mother Liana lives in Quebec with her partner Phyllis; their combined household income is \$30,000 per year. His father Bob lives in New Brunswick with his 6 other children, earning \$79,100 per year. Is Ron Lillyhammer eligible for fee assistance?

Does the household earn less than the low-income threshold for their province and number of household members?
<b>Sarita</b>	1	\$ 25 159	Yes
<b>Liana et Phyllis</b>	2	\$ 30 000	Yes
<b>Bob</b>	7	\$ 56 642	No

Ron is not eligible for the MCAT® FAP for Canadians.

#### Ranking:

**Example A:** Diego D'Amours lives in Prince Edward Island with his two daughters, Portia and Pooja. His pre-tax income is \$12,100. He receives \$100 per month from his parents to help with his children. His rent is \$805/month and food amounts to \$490 monthly. Diego is on his second degree and currently has \$98,500 in student debt (annual interest is calculated at 8.75% for student debt). What would Diego's debt deficit be?

Pre-tax Income: (\$12,100 annual salary) + (\$100 x 12 months parental gifts) = \$13,300

Expenses & debt: (\$805 x 12 rent) + (\$490 x 12 food) + (\$98,500 debt\*0.0875 interest rate) = \$24,158.75

Diego D'Amours debt deficit: \$13,300-\$24,158.75= **-\$10,858.75**, putting him in the D4 category.

**Example B:** Sarita MacNaughton of Nunavut earns \$9,990 per year. She is living rent-free in an apartment building owned by a family member. She spends around \$280 per month on food. She received a financial award of \$550 in 2016. Her monthly bus pass costs \$137. She borrowed \$2200 to pay for books, online courses, and other study materials. To complement her savings, she took out a second loan for \$45,000 to pay for the two years of undergraduate tuition she has completed to date. What is Sarita's debt deficit?

\$9,990 + \$550 – (\$280 x 12) – (\$137 x 12) – (\$2200 \*0.0875)– (\$45,000\*0.0875) = **-\$1,406**

Sarita MacNaughton's debt deficit of -\$1,406 puts her in the D1 category.

**Ranking Examples A and B:** Is Diego more likely to receive fee assistance or is Sarita? Diego has a higher debit deficit (category D4) than Sarita (category D1). Therefore, Diego is more likely than Sarita

*to receive Fee Assistance. However, depending on other applications, both may receive an award or neither.*

**I've read the Guidelines document and still have questions. Who can I contact?**

For questions and technical support, please contact AFMC helpdesk support team at [service@afmcstudentportal.ca](mailto:service@afmcstudentportal.ca).
