NOTES FOR APPENDIX A

AFMC Classification of Academic Disciplines

Several AFMC reports are dependent on reference tables for normalizing the scientific specialties reported by faculties of medicine into predetermined broad categories (e.g. basic sciences, clinical sciences and their subcategories anatomy and cell sciences, general surgery etc.). The AFMC reference tables are located in the Standards database of the AFMC SQL server.

A recent review of the AFMC references tables and reports revealed an increasing number of reported disciplines or specializations being categorized under catch all terms (i.e. miscellaneous, other...). At the same time, counts for catch all categories have been increasing in size over the last several years. Not only are catch all categories uninformative to AFMC's audiences, but they also prevent us from recognizing emerging trends in medical education and research.

In an effort to review how we categorize academic specialties, AFMC conducted a scan of classifications schemes available in the public domain. In doing so, alternative classification schemes were described, and their characteristics were assessed. This evaluation was particularly attentive to academic specialties previously reported in AFMC surveys describing graduate student field of studies, faculty departments, and funded biomedical/health care research revenues by member faculties.

Starting with the release of data for reference year 2016/17, the Canadian Medical Education Statistics publication was revised in order to reflect the new classification of disciplines.

APPENDIX B

Definition of "Full-Time Faculty" by Canadian Faculty of Medicine

Each faculty of medicine has its own definition of "full-time". Listed below are the definitions as provided to AFMC on the AFMC Annual Faculty of Medicine Survey (AFMS).

Memorial University of Newfoundland:	Position that is tenured, tenure track or contractual - working full-time hours
Dalhousie University:	<p>Full-time faculty are those faculty members with a 1.00 FTE and are:</p> <ul style="list-style-type: none"> • a member of the Dalhousie Faculty Association (DFA); or • part of a clinical department academic funding plan (AFP); or • a non-AFP member of a clinical department at a major teaching site. <p>Note: Part-time faculty are those members with an FTE less than 1.0 and includes limited term post-retirement and adjunct appointments.</p>
Université Laval:	<p>Full-time faculty are salaried employees of Laval University who have the title of professor (full), associate professor, assistant professor, or other educators (lecturers in medicine and practical training officers).</p> <p>Since the 2013-2014 report, we have brought some changes to the definitions of "part-time". We have included all the people who have not been counted as "full-time", but who have an official status at the Faculty of Medicine of Laval University (clinical instructors, clinical professors, and associate professors).</p> <p>In respect of dividing them into "paid" and "volunteers", we have taken into account recent agreements between the government and the federations of physicians (FMOQ and FMSQ), which provide compensation for supervising clerks and residents as well as for some teaching activities in clinical settings. So, people in the "part-time" category are now considered as "paid, save for some exceptions. These exceptions appearing in the "volunteer" column refer to people who have received no pay from the faculty and who belong to the kinesiology and rehabilitation departments. Associate professors of all departments that have not been compensated by the faculty have been counted as "volunteers".</p>
Université de Sherbrooke:	Full-time faculty devote 100% of their time to engage in teaching, research, and clinical responsibilities.
Université de Montréal:	A faculty member is considered full-time if 75% of his time is allocated to instruction, research, administration or any scholarship of professional activity related to medical education.
McGill University:	All full-time PhD staff and geographic full-time (university) and (hospital) appointees.
University of Ottawa:	<p>REGULAR FACULTY MEMBER: a member of the academic staff, holding a regular appointment, who is in the bargaining unit as prescribed by the Association of Professors of the University of Ottawa Collective Agreement (APUO).</p> <p>FULL-TIME ACADEMIC: as defined in the Faculty Appointments Advisory Committee manual: Category (Full-time/Part-time). Each of the categories of academic appointment will be differentiated by the amount of time dedicated to academic work on average over the course of the year.</p> <p>Full-time: The physician or clinical scientist (PhD) spends four (4) full days or greater per week in academic activities as approved by the Department Chair and the Dean (and as defined by an academic job description), at the University, a research institute, or a fully affiliated hospital, community affiliated hospital or an affiliated community practice with a relationship with the University of Ottawa.</p>

continued

APPENDIX B (continued)

University of Ottawa (cont'd):	Part-time: The physician or clinical scientist (PhD) spends between one (1) and four (4) days per week in academic activities as approved by the Department Chair and the Dean (and as defined by an academic job description), at the University, a research institute, or a fully affiliated hospital, community affiliated hospital or an affiliated community practice with a relationship with the University of Ottawa. The number of days per week shall be agreed to in the Letter of Agreement (LOA).
Queen's University:	Those who are appointed with appropriate academic rank whose responsibilities include education/teaching, research/scholarship, and administration. The responsibilities of full-time clinical faculty also include the provision of clinical service within their discipline.
University of Toronto:	<p>Full-time Faculty:</p> <ul style="list-style-type: none"> - Includes all full-time clinical (MD) faculty appointed under the Clinical Faculty Policy and all full-time tenured/tenure-stream, teaching stream and contractually limited term appointments. - Full-time clinical (MD) faculty are engaged in academic activities for at least 80% of their professional time. All other full-time faculty have a 100% FTE salaried appointment at the University of Toronto. <p>Total number of full-time faculty members who are tenured or within the tenure stream: This year's total is a more accurate number and includes continuing Faculty in the Tenure, Tenure-Stream, and Teaching-Stream. In previous years, this number included Non-Tenure Stream Faculty.</p>
McMaster University:	Full-time faculty are those appointed under the McMaster University Revised Policy and Regulations with Respect to Academic Appointment, Tenure and Promotion. Full-time faculty are those holding an academic appointment that is at least 0.75 FTE.
Western University:	<p><u>Full-Time Faculty with Clinical Appointments (Physicians):</u> "Clinical Academic" Is the appointment category of a clinician who is generally located in a teaching hospital, Family Medical Centre or other teaching unit contributes to the academic mission of the University with an on-going continuing commitment; may be remunerated for academic contributions through a department or program merit-based reward system; and may be required to participate in a departmental practice plan.</p> <p><u>Full-Time Faculty with UWOFA/Basic Science Appointments:</u> Any faculty member who is a Member of The University of Western Ontario Faculty Association, holding a limited term, probationary, tenured, externally funded or visiting (with remuneration) appointment is classified as full-time.</p>
Northern Ontario School of Medicine:	The Northern Ontario School of Medicine has three Divisions: Clinical, Medical and Human Sciences. It has predominantly part-time faculty in the Division of Clinical Sciences. Faculty members in the other Divisions are considered full-time if they have no appointments at other institutions and if at least 50% of their salary is paid by NOSM.
University of Manitoba:	As per the University of Manitoba-University of Manitoba Faculty Association 2016-2017 Collective Agreement (Available online: http://umanitoba.ca/admin/human_resources/staff_relations/media/Final_draft_version_2016_2017_UMFA_Collective_Agreement_with_signatures.pdf), a full-time faculty member is defined as an academic staff member with the rank of Professor, Associate Professor, Assistant Professor or Lecturer who is appointed for a normal work load (i.e.: 1.0 FTE or 40 hours per week).

continued

APPENDIX B (continued)

- University of Saskatchewan:** The College of Medicine, University of Saskatchewan (CoM) has revised its definitions of faculty in accordance with governance and leadership restructuring in the College. We no longer use the designations “full-time” and “part-time” for our MD clinical faculty, except for those who are employees of the University. As an intentional component of our restructuring, the College no longer offers employment to clinicians but continues to recruit medical faculty to engage academically as self-employed contractors. As of mid-2016, only 30 clinicians remained employed by the University, while the much larger self-employed cohort is made up of clinicians for whom the designations “full-time” and “part-time” have no real relevance. Academic assignments and deliverables are discussed with all faculty on an annual basis, irrespective of their employed or self-employed status.
- Our designation for “full-time faculty members” is reserved for those faculty who are employees of the university with an FTE of 1.0 only. The group includes most of the College's Senior Administration Leaders (Department Heads, Unified Department Heads, Associate Deans, Vice Deans and the Dean), our biomedical scientists, our population health scientists, some clinicians and some of our School of Physical Therapy faculty. The source reporting data for this group is the January 2017 HRD records of the University. The source for the PAID numbers (reported as VOL in previous years) is our CoM's database for active appointments as of January 1, 2017.
- University of Alberta:** Board/AAS:UA Agreement (Faculty), Clause 1.03 "Staff" and "staff member" refer to all those persons who have been appointed to full-time teaching and research positions on the academic staff of the University of Alberta in which the appointee has, or may be granted, a continuing appointment. (GFC 31 MAY 1982).
- University of Calgary:** Full-time faculty members are appointed as full-time regular members of the University's academic staff and receive a rank salary in accordance with the academic salary scales of the University.
- University of British Columbia:** Full-time Faculty Members means all persons appointed by the UBC Board of Governors on a full-time basis as Instructor, Senior Instructor, Lecturer, Assistant Professor, Associate Professor, Professor, or equivalent position.

NOTES FOR APPENDIX B

Definition of "Full-Time Faculty" by Canadian Faculty of Medicine

Definitions of "full-time" vary from one faculty of medicine to another and sometimes from year to year within the same faculty. The following faculties changed definitions:

1992/93	Université de Montréal, University of Toronto
1999/00	Western University
2000/01	Dalhousie University, Université de Montréal, Western University
2001/02	Western University
2003/04	University of Ottawa, Western University, University of Manitoba, University of Alberta
2004/05	Dalhousie University
2005/06	University of Alberta
2006/07	Université de Montréal, University of Ottawa
2007/08	Queen's University, University of Toronto, Northern Ontario School of Medicine, University of Manitoba
2008/09	University of Ottawa, University of Toronto
2009/10	Université de Montréal, University of Ottawa, University of Toronto
2010/11	Queen's University, University of Toronto, Western University
2012/13	University of Toronto, University of Manitoba
2013/14	Université Laval
2016/17	Université Laval, University of Manitoba, University of Saskatchewan

CMES Table Cross-Reference

CMES 2018 Vol. 40 is the first version of the CMES publication to feature a new Table naming system. New tables have been added, and all tables have been re-arranged and organized into new and revised sections. This section will help guide you in finding the tables and graphs found in Vol. 42 in older volumes of the CMES publication (up to 5 years).

Table Name	Table				
	CMES 2021 Vol. 43	CMES 2020 Vol. 42	CMES 2019 Vol. 41	CMES 2018 Vol. 40	CMES 2017 Vol. 39
Accredited Canadian Faculties of Medicine	A-1	A-1	A-1	A-1	1
Information about Canadian Faculties of Medicine	A-2i	A-2i	A-2i	A-2i	2a
Geographic Allocation of Places within Quota in Canadian Faculties of Medicine	A-2ii	A-2ii	A-2ii	A-2ii	2b
Tuition Fees in Canadian Faculties of Medicine: Session Commencing Fall	A-3	A-3	A-3	A-3	3
Population Aged 20 to 24 and Number of First-Year Places Filled in Canadian Faculties of Medicine by Province of Residence	A-4	A-4	A-4	A-4	4
Payment Scales for Post-MD Clinical Trainees in Canadian Faculties of Medicine by Rank and Province of Training	A-5	A-5	A-5	A-5	5
Post-MD Clinical Trainee Fees in Canadian Faculties of Medicine	A-6	A-6	A-6	A-6	6
Duration of Clinical Clerkship and Amount of Stipend in Canadian Faculties of Medicine	A-7	A-7	A-7	A-7	7
Full-Time Faculty Members in Canadian Faculties of Medicine by Rank and Gender	B-1	B-1	B-1	B-1	63
Full-Time Faculty Members in Basic Medical and Biological Sciences, Clinical Sciences and Health Sciences in Canadian Faculties of Medicine by Rank and Gender	B-2	B-2	B-2	B-2	64
Faculty Members in Each Canadian Faculty of Medicine by Rank and Gender — Full-Time	B-3i	B-3i	B-3i	B-3i	65
Faculty Members in Each Canadian Faculty of Medicine by Rank and Gender — Part-Time	B-3ii	B-3ii	B-3ii	B-3ii	65
Faculty Members in Basic Medical and Biological Sciences, Clinical Sciences, and Health Sciences in Canadian Faculties of Medicine by Rank and Discipline	B-4	B-4	B-4	B-4	66
