Note: The results presented in these data tables are based on the responses of a self-selecting sample from a census of MD students eligible to graduate from a Canadian faculty of medicine as of January 2026. These responses should not be extrapolated to the entire medical student population. Comparisons to the Association of American Medical Colleges' (AAMC) Canadian Graduation Questionnaire (CGQ) data from previous years cannot be made due to changes in the content of the questionnaire, as well as the method of administration. Percentages may not add to 100 due to rounding.

Overall Rating of Medical Education

1a Please rate the quality of your medical education.

Response options: Poor; Fair; Good; Very Good; Excellent.
For the purposes of analysis, the response options listed above were coded from 1 to 5, respectively.

	2024 Count	2024 Percent	2025 Count	2025 Percent	2026 Count	2026 Percent

Enrolment and Demographic Information

2 Please select all the degree program(s) that you are currently enrolled in.

Response options: MD; MD/PHD; MD/MPH; Other joint program; Other program enrolled separately.

Note: This question was recently added to the survey, so data is only available for the current year.
As this is a multi-select question, counts may not add up to the total number of respondents and percentages may not sum to 100%.

	2026 Count	2026 Percent
MD	1150	97.4
MD/PHD	22	1.9
Other joint program	23	1.9
Other program enrolled separately	6	0.5
Number of Respondents	**1181**	**100.0**

3 Age of Respondents

In what year were you born?

Note: This question was recently added to the survey, so data is only available for the current year.
Age is calculated by subtracting the report year by the year the respondent was born.

Behaviours Experienced During Medical School

For reporting purposes, the two questions regarding school policies and procedures related to possible mistreatment of medical students are included in this section. Please note that these questions did not appear together with the questions about behaviours experienced during medical school (the results of which form the rest of this chapter). The questions relating to “behaviours experienced” did not use the word “mistreatment” to avoid imparting bias to responses.

The questions in this section of the GQ may be particularly sensitive for students and schools. To protect student anonymity, the results of the series of questions asking about the frequency of the behaviours experienced are reported at an aggregate level only.

36 Are you aware that your school has policies regarding the mistreatment of medical students?

Response options: Yes; No.

For each of the following behaviours, please indicate the frequency you personally experienced that behaviour during medical school. Include in your response any behaviours performed by faculty, nurses, residents/interns, other institution employees or staff, and other students. Please do not include behaviours performed by patients and their families. During medical school, how frequently have you experienced:

Response options: Never; Once; Occasionally (2-4 times); Frequently (5 or more times).
For the purposes of analysis, the response options listed above were coded from 1 to 4, respectively.

Note: This question was recently added to the survey, so data is only available for the current year.

Mistreatment Occurrences

Percent of respondents who indicated they personally experienced any of the listed behaviours. The data are derived from the response to the question reported in the table above and include all respondents who reported that they had personally experienced, at least 'Once,' any of the behaviours listed. Those who reported that they 'Never' experienced any of the behaviours listed in the table above make up the 'No' category in the following table.

Note: This table is derived from the question reported in the previous table and did not appear as a question.
